

## HUCTW Copayment Reimbursement Caps 2017 & 2018

Harvard and HUCTW have negotiated a reimbursement program that helps HUCTW members with their annual medical copayment costs if they reach above certain amounts. Since its inception the program has assisted with the costs of doctor’s visits and prescriptions, but in January 2017, the program started assisting with copayment costs for hospital and ER visits, as well as high tech imaging. All copayments paid above the following thresholds will be eligible for reimbursement:
